

Highers/Intermediate 2's

Intermediate 2

Intermediate 2 courses are a stepping stone to further education and to full-time and part-time Higher courses. There are no entry qualifications. They are suitable for school leavers and are especially useful for students who have been out of learning for some time and wish to increase their qualification portfolio. Full-time students can study either three or four subjects and take part in a study skills programme. All students will attend for 33 weeks and study either 17 or 21 hours per week. Intermediate 2's are available in the following subject areas:

- **Biology**
- **Chemistry**
- **English**
- **French**
- **Mathematics**
- **Philosophy** (North Ayrshire only)
- **Physics**
- **Psychology**
- **Spanish**

Highers

The Scottish Higher is recognised by all colleges and universities as the standard entry qualification. Our Higher courses are offered full-time or part-time. Full-time students can study either three or four subjects and take part in a study skills programme. All students will attend for 33 weeks and study either 17 or 21 hours per week. Highers are available in the following subjects:

- **Biotechnology**
- **Chemistry**
- **Drama**
- **English**
- **French**
- **Human Biology/Biology**
- **Mathematics**
- **Modern Studies** (Greenock only)
- **Philosophy** (North Ayrshire only)
- **Physics**
- **Psychology**
- **Sociology**
- **Spanish**

Other Study Options

We recognise the need for flexible study methods and as such our Higher and Intermediate 2 programmes reflect this. What's more, we offer an Introduction to Highers programme starting in January. This course offers students a chance to study five from English, Mathematics, Biology, Chemistry, Physics, Psychology or Spanish over 18 weeks. Students will participate in a study skills programme which includes study techniques, exam stress and essay writing. This can lead to Intermediate 2 or Higher courses depending on individual achievement.
